

Reclaim Academy

Our tuition-free online program offers an alternative learning environment to students focused on credit recovery as they work toward graduation no matter where they are, ensuring that every student has the opportunity to succeed.

Academics

Trinity Charter Schools Reclaim Academy utilizes the Texas Curriculum Management Program Cooperative/TEKS Resource System that ensures its program is aligned with the most current versions of the Texas State Board of Education for each core subject area as well as curriculum scope, sequence, vertical alignment charts and year-at-a-glance curriculum mapping.

Educational Goals

Our students play an active role in planning and guiding their academic careers through student-led credit acceleration and recovery—guiding graduation planning and career exploration. These efforts result in student-led conferences that showcase academic growth and success.

Graduation

Students earn a Trinity Charter Schools diploma upon completion of state and local requirements. Students are welcomed and encouraged to participate in the commencement ceremony to receive recognition of their accomplishments.

Curriculum

- Edgenuity Learning Platform
- TEKS Resources System Curriculum
- On-Demand Learning Videos
- Individualized Learning Plans
- Pathway to Early or On-Time Graduation

Edgenuity Platform

The requirements for graduation are completed through the web-based Edgenuity learning software. Edgenuity provides an interactive and supportive educational experience designed to engage students with online and blended learning.
